

# Oscar 11: Highlights

## Highlights of the New Features Found in Oscar 11

Peter Hutten-Czapski, MD  
Copyright 2011 under creative commons

# “Search” for next appt

- The appointment screen now sports a [S] link next to the [W]eek view link
- The [S]earch link allows for searching for upcoming open appointment slots

# “Search” for next appt

- To Search Pick
  - Provider
  - Day of the Week
  - Time of day
  - Appointment type (this matches the appointment template code eg 1)
  - Number of results
- Click “Search”
- Click on the desired time to make an appointment in that slot

# Appointment “Type”

- There is a “Type” button in the make an appointment screen
- Clicking it gives you an option to prefill the appointment duration, reason and resources needed from a list of defaults (configured in Admin).
- In this case 1:1 Councilling was picked which changed the default length to 60 minutes, the reason to counselling, the location to HFHT and the resources to Room 3

**MAKE AN APPOINTMENT (Peter Hutten-Czapski)**

# Appointment “Type” Setting

- You can set the available “Type” in the admin screen
- Adding an appointment type, eg a 5 min same day appointment for prescription renewal, is a matter of filling the boxes.
- By clicking the list existing types can be edited or deleted

The screenshot displays the 'Appointment Types' admin interface. At the top, there is a green header 'Appointment Types' and a blue header 'EDIT APPOINTMENT TYPE'. Below this is a form with the following fields:

- Name: Rx
- Duration: 5
- Reason: prescription renewal only
- Notes: advise doctor that the next patient is waiting if it is taking too long
- Location: Select Location (dropdown menu)
- Resources: (empty text box)

A 'Save' button is located below the form fields. Below the form is a table listing existing appointment types:

Name	Duration	Reason	Notes	Location	Resources	
Psych	60 min	one hour psychotherapy		0	Quiet room	<a href="#">edit</a> <a href="#">delete</a>

# The Inbox

- The inbox now allows you to manually enter a laboratory result with the “Create Lab” link
- “OLIS Search” allows for polling the Ontario Lab database for patient results
- “HRM Status/Upload” allows for polling the Ontario Hospital Report database for patient results

# New Preferences

- In addition to the ability to place links to eforms and forms on the appointment screen (Oscar version 10.12) you can now add your own custom URL link to the web or a specific Oscar page.
- You can tune the level at which Oscar will warn you of interactions
- You can set a default diagnosis and your default billing form
- You can show the DOB on prescriptions
- myMeds offers myOscar integration for prescriptions

The screenshot shows the 'PREFERENCE' configuration window with the following settings:

- Start Hour (0-23):** 8
- End Hour (0-23):** 18
- Period min.:** 15
- Group No.:** .default (with a 'View/Edit Groups' button)
- Print Qr Codes on Prescriptions:**
- Length of link and form names to display on appointment screen:** 3
- Encounter Forms to display on appointment screen:** A list with checkboxes for Lab Req, Lab Req 2007 (checked), Letterhead, MMSE, Mental Health, Ovulation, and Pall\_Care.
- eForms to display on appointment screen:** A list with checkboxes for Induction, Joint diagram, LETTER (checked), MDQ, MIBI, MMSE, and MMSE worksheet.
- quick links to display on appointment screen:** A section with a 'Remove' button and a message: 'Message : http://localhost:8080/oscar-SNAPSHOT/oscarMessenger/SendDem'. Below this is a scrollable area containing:
  - Name:** Link to Somewhere
  - Url:** hic\_no=\${demographicId} (with a note: '(expanded tokens in the url are \${contextPath} and \${demographicId})')
  - An 'Add' button.
- Rx Interaction Warning Level:** Low

At the bottom of the window, there are 'Update' and 'Close' buttons, and three links: 'Edit Default Billing Diagnostic Code', 'Change Your Password', and 'Set Default Cov'.

# eChart CPP Setting

- Preferences also lets you adjust the presence, format and location of the Cumulative Patient Profile
- In the example only the Medical and Social histories are visible on the encounter screen

The screenshot displays a medical software interface for a patient named Peter Hutten-Czapski. The main window shows a patient summary with tabs for Medical History, Social History, and Allergies. A 'Preferences' dialog box is open, titled 'Configure eChart CPP'. The dialog has a 'Preferences' tab and contains the following settings:

- Enable Custom EChart
- Social History: Row 1, Column 2
  - Show Start Date
  - Show Resolution Date
- Medical History: Row 1, Column 1
  - Show Start Date
  - Show Resolution Date
  - Show Treatment
  - Show Procedure Date
- Ongoing Concerns: None
  - Show Start Date
  - Show Resolution Date
  - Show Problem Status
- Reminders: None
  - Show Start Date
  - Show Resolution Date

A 'Save Changes' button is located at the bottom of the dialog box. The background interface shows a patient list on the left and a search bar at the top.

# eChart Changes

- HRM Documents gives you access to documents downloaded from the Hospital Report database
- Resolved Issues are now displayed
- The new Spell Check button works in all browsers  
(in FireFox use the 'MedSpell' add in for this functionality)

# eSigning Rx

- You can sign the Rx electronically if you have a Topaz tablet
- Simply click on the “Sign” button and you will be offered a window where you can insert your signature.
- When you click “Accept” then the signature will be transferred to the Rx ready for direct faxing from the desktop

The screenshot displays the oscarRX interface for creating a prescription. At the top, it shows the patient's name as "I AM NOT A PATIENT" and the age as "2008". The preferred pharmacy is listed as "Haileybury Family Health". The interface is divided into several sections:

- Header:** Includes the oscarRX logo and the pharmacy name "Dr Peter Hutten Czapski, Haileybury Family Health Team, 95 Meridian, Haileybury, ON P0J 1K0, Tel: 705-672-3000, Fax: 705-672-3000".
- Prescription Details:** Shows the medication "AMOXICILLIN 250MG" with a quantity of 21 and a repeat of 0. The date is "September 5, 2011".
- Signature Field:** A large text area for the signature, with a red diagonal line drawn across it. Below the field is a "Sign" button and the text "Dr Peter Hutten Czapski Pract. No. [redacted]".
- Actions:** A vertical column of buttons including "Print PDF", "Create New Prescription", "Back to Oscar", "Print", and "Print & Paste into EMR".
- Additional Notes:** A text box for adding notes to the prescription, with an "Add to Rx" button below it.
- Drug Information:** A link to "AMOXICILLIN (AMOXICILLIN TRIHYDRATE) (AMOXICILLIN 250MG)".

# Update Drugref

- The database that drugref uses as a list of medications can now be updated from Health Canada with this Admin function.
- The date of the last update is displayed
